

*Beacon Light Behavioral Health Systems* was founded in the early 1900's to provide services to children abandoned or orphaned by the early oil and lumber industries. Throughout its history, the agency has provided quality care to young people. As the needs of our society changed, Beacon Light Behavioral Health Systems has evolved into a private, not-for-profit social service agency providing quality, professional behavioral health and educational services to young people.

Our continuum of care includes services for children as well as adults that includes: specialized RTF services, shelter care, RTF, foster care, outpatient, community based, and school based programs in addition to a full line of services for those with mental retardation and/or developmental disabilities.

*An individualized,  
recovery-focused service...*

# Mobile Medication Management

## What is Mobile Medication?

The Mobile Medication Program is a program providing services in:

**Warren County  
Forrest County  
Cameron County  
Elk County**

- It is a voluntary, community delivered service for adult Health Choices eligible consumers.
- It is for adults 18 years of age and older with a serious mental illness that experience difficulties progressing toward recovery due to the inconsistent adherence to a prescribed medication regimen.
- The Mobile Medication Program is a recovery focused service that allows individuals to be educated about their medications and trained to develop skills to manage their medication effectively in order to control symptoms and increase community tenure.
- Members of the team will act as a liaison between the prescriber and the consumer to help establish better communication and to help integrate the consumer back to an outpatient setting where they will advocate more effectively for them selves with their prescribing clinician.
- The Mobile Medication Team operates 24 hours a day, 7 days a week, including weekends and holidays.

## Admission Criteria

- I. The person must be 18 years of age or older and have a primary diagnosis of a serious mental illness, (Major Depressive Disorder, Bipolar Disorder, Psychosis NOS, Schizophrenia or Schizoaffective disorder) and be prescribed psychotropic medication
- II. The person is in need of community delivered psychiatric nursing services to prevent the need for more restrictive levels of care and to improve community tenure. The person must meet one of the following:
  - Receiving Case Management or other ambulatory services and in need of intensive medication management to prevent the need for an inpatient level of care
  - Current inpatient admission or readmission due to non-adherence or inconsistent adherence to the prescribed medication regime
  - Initiation or revision of a complex medication regime
  - Medical diagnosis that requires coordination of Physical and Behavioral Health issues, including medication management
  - Temporary or permanent absence/ withdrawal of a primary support who had been assisting the person with medication management
